## **DETAILED ACTION**

### ***Reissue Applications***

This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1, 2, 4-7 and 9 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

Claim 2 is not in compliance with 37 CFR 1.73

In particular, claim 2 presently recites:

"determining means for producing a pulse when said front wheel and rear wheel passes into and departs from said first beam and said second beam, respectively;..."

Art Unit: 3663

This clause does not properly show all changes with respect to the original claim 2.

It should recite:

“determining means for producing a pulse when said front wheel and rear wheel passes into and departs from said [visible entrance laser] first beam and said [visible exit laser] second beam, respectively;...”

Any inquiry concerning this communication should be directed to Mark Hellner at telephone number 571 272 6981.
